

## The 1778 AMELIA COUNTY PPTLs

No tax lists exist for the years 1772-1777. In 1777, the newly formed Virginia State Assembly changed the age at which white males became tithables from sixteen to twenty-one years of age. The age at which slaves became tithable was unchanged, remaining sixteen years or older.

### The 1778 PPTLs are the first to use this new age criterion for white male tithes.

The microfilm containing the PPTLs for 1778 contains 13 individual commissioner's lists, as follows:

HA = Henry Anderson's lists (2), Raleigh Parish (5 pages)

EB = Edmond Booker's list, Raleigh Parish (3 pages) (**faded**, faint images)

VB = Vivion Brookings' list, lower end of Raleigh Parish (6 pages)

CH = Christopher Hudson's list, Raleigh Parish (4 pages)

TM = Thomas Mumford's list, Raleigh Parish (3 pages)

JT = John Tabb's lists (2), Raleigh Parish (7 pages)

LW = Lau. Wills' list, Raleigh Parish (2 pages)

PRB = Peter Randolph Bland's list, Nottoway Parish (3 pages)

SB = Stephen Bolling's list, Nottoway Parish (14 pages)

EBj = Edmund Booker, Jr.'s list, Nottoway Parish (2 pages) – EXTREMELY FADED

SC = Stephen Cocke's list, Nottoway Parish (2 pages)

PL = Peter Lamkin's list, Nottoway Parish (8 pages)

TBM = Thomas B. Mumford's lists (2), Nottoway Parish (7 pages)

Summary of lists, Raleigh and Nottoway Parishes (2 pages)

I have transcribed these names as accurately as possible, given the marked variations in handwriting, spelling, etc. of the various commissioners, the faded or blurred images for some of the pages, and other factors that made deciphering the names difficult. The list of Edmund Booker is particularly faded in some areas, but not others. When unsure, I've noted such by following the name with a question mark (?). Unfortunately, the ink for many of the entries has faded so much over time that they are no longer readable; thus for this particular year's PPTL, not finding a name on this transcription does NOT mean that person's name is not on the list. It could be one of those that has faded. This is especially true if that particular name appears on the 1779 PPTL.

I've spelled the names just as the tax commissioner did, not imposing my impression of what the commissioner intended; for this reason, users *should* look for spelling variations of the names they are searching for.

### EXPLANATION OF COLUMN HEADINGS

TAXPAYER: the name of the person paying the Tax

LIST: The initials of the person who compiled the tax list on which the individual appears (an indication of the geographic area and the parish where these individuals lived).

OTHER WHITE MALE TITHES: The names of other men **above the age of 21**, whose tax was paid by the taxpayer. When of the same surname, these were usually sons of the taxpayer. Otherwise, they were guests, overseers or other employees.

SLAVES: slaves over the age of 16, for whom a tithe was due (doesn't include ALL slaves).

1778 Amelia County PPTLs

TITHES = Total tithes (WMT 21 and over, plus slave tithes). As before the number of white male tithes plus slave tithes should equal the total tithes; when it doesn't, the reason is usually that the taxpayer paid his tithe elsewhere, or was for some reason exempt.

ACRES – unlike prior years, very few entries in 1778 recorded the acres owned by the taxpayer. The reason for this isn't apparent.

COMMENTS

Land = individual taxed only for land, not for self; exempt for some reason.

List = individual named not taxed for self; exempt, or taxed personally elsewhere.

List? = number of individuals named is one more than number taxed; List implied but not stated.
